Winter Fun Facts...Did you know?

- Heavier moisturisers can reduce tight and dry skin from heaters and extreme weather changes
- Winter is the best time to treat all skin conditions
- Hot showers, while nice, can exasperate redness when directed onto the face
- SUNSCREEN! While the sun may not be out there are still harmful UV rays reaching us - so SLIP, SLOP, SLAP

AHA's Vs Jessners peels-which is for you?

AHA Skin Peel (allow 60 minutes)

These very superficial Glycolic/Lactic peels are for all skin colours with no down-time. Designed to be performed weekly to see improvements in:

- Skin refinement
- Dull, Dry and Dehydration
- Mature, sun damaged skin
- Congestion and blackheads
- Pigmentation
- Increase skin care absorption
- Maintain other treatment results

Not suitable when pregnant or breast feeding

Still not sure? Book a thorough skin consultation with our Fully qualified Cosmetic Dermal Therapists today.

Jessner's Skin Peel (allow 90 minutes)

This active peel provides great results in texture and tone to achieve a youthful, healthy glow with only 3-5 days down time. For maximum reduction of facial concerns, Jessner's are recommended at 2-3 week intervals. Perfect for;

- Oily
- Congestion and blackheads
- Mild to Moderate Acne
- Open pores
- Fine lines
- Moderate sun damage
- Pigmentation
- Thickened skin

Not suitable for clients that are pregnant, breast feeding or allergies to aspirin
